Petitioner has attempted to contact Talon Manufacturing of Herndon WV and discovered the following:

The telephone number 304-294-4839 is reported as being disconnected by the telephone company. A call to Directory Assistance reported no such listing in Herndon, WV.

The company's Internet web site, [www.talonammo.com](http://www.talonammo.com), is not longer available on the Internet.

A news article from the Charleston Gazette (WV) on Feb. 15, 2007 (copy attached) indicates that the company was forced to close its operation prior to that date.

The facts provide the grounds for petitioning for the cancellation of the TALON trademark, Reg. No. 2,236,383.

State to lose \$1.2 million on Talon investment

By Ken Ward Jr.  
Charleston Gazette (WV)  
February 15, 2007

State officials expect to lose more than \$1.2 million in public money they invested in Talon Manufacturing now that environmental problems have forced the company to close its operations in Mason and Wyoming counties.

The state Jobs Investment Trust hopes to recoup a \$500,000 loan once Talon is able to sell off its equipment, but the agency expects to lose its \$1.25 million ownership stake in Talon.

"In all likelihood, we'll probably end up writing that off," said Richard Ross, the investment trust's executive director.

Talon started operations in 1993, and acquired government contracts to disassemble ammunition. The company has had a series of problems, including several explosions, run-ins with environmental regulators, failure to pay workers' compensation premiums on time, and bankruptcy reorganization.
